Alcohol Policy – Racer Social Conduct

Social activities are an important part of the life and atmosphere of the students enrolled in the member schools who participate in the Southern California Collegiate Snowsport Conference (SCCSC). It is recognized that these activities at times involve both the attendance of a substantial number of students under 21 years of age and the presence of alcoholic beverages. This SCCSC Student Alcohol Policy (hereinafter, the SAP) was developed with careful consideration to individual and community health and welfare issues as well as the realities of implementation.

The Policy is intended to apply to:

- A. Programs and events that are organized and sponsored by Registered Campus Organizations, at which attendance consists predominantly of students under 21 years of age and at which alcoholic beverages will be present.
- B. SCCSC-sponsored events at which attendance consists predominantly of students under 21 years of age and at which alcoholic beverages will be present.

The Policy is to be applied in conjunction with local, state, and federal laws, codes, and ordinances.

POLICY STATEMENT

The SCCSC requires that individuals and groups choosing to offer alcoholic beverages at their programs and events operate within state and local laws and comply with responsible hosting guidelines, as outlined in this Policy.

In accordance with the SAP, alcoholic beverages may be present at events where attendance is likely to consist predominantly of students under 21 years of age only in regulated settings that give the highest priority to standards for student health, safety, and responsibility that apply across entire populations.

Standards for Student Health, Safety, and Responsibility:

The following standards are designed to promote student health, safety, and responsibility. Subject to the facility use and scheduling policies and constraints of the venue involved, alcoholic beverages may be served at programs and events where attendance is likely to consist predominantly of students under 21 years of age only under the following general provisions and specific conditions:

- a. The service and/or consumption of alcoholic beverages is to be complementary to the event; under no circumstances should an event have the consumption of alcohol as its primary purpose.
- b. All events at which alcohol is served must also include the provision of alternate non-alcoholic beverages and free or reasonably priced snacks throughout the duration of the event. If alcoholic beverages are sold, alternate non-alcoholic beverages may be reasonably priced; if alcohol is served free of charge, the alternate non-alcoholic beverages must also be complimentary.
- c. No one under 21 years of age may be served, or possess, alcoholic beverages. Staff or bartenders must ask for proof of age.
- d. The event sponsor is responsible for ensuring that all activities at which alcohol is to be present are planned and conducted in a manner that assures compliance with this SAP as well as state and local laws.

- e. The event sponsor is responsible for ensuring that all activities at which alcohol is to be present are planned and conducted in a manner that minimizes any risk to the health and safety of attendees. Drinking contests or games are strictly prohibited.
- f. Programs and events at which alcohol is present and where attendance is likely to consist predominantly of students under 21 years of age shall not be open to the public. Attendance shall be by invitation to selected members of the campus community (and their guests) who can be readily identified by procedures or mechanisms typically used to determine membership in the campus community (e.g., University-Issued Student Identity Cards).
- g. No registered campus organization may co-sponsor or co-finance an event at which alcoholic beverages are purchased by any of the sponsoring organizations.
- h. The purchase of alcoholic beverages may not be coordinated by any one person on behalf of a registered campus organization.
- i. Promote advertising that integrates the message of social norms and harm reduction, and not those that encourage alcohol consumption.
- j. Promote the message of individual and group harm reduction, through the mandatory use and encouragement of designated drivers at all events when alcoholic beverages are served.

ALCOHOL-RELATED ADVERTISEMENT

Advertisements that reference alcoholic beverages, in any form (e.g., print ads, e-mail or website announcements, banners, signs, flyers, t-shirts, etc.), may not portray drinking as a means to academic or social success, associate alcohol with the performance of tasks that require skilled reactions such as the driving of an automobile, suggest that drinking is the sole purpose or dominant theme of an event, or promote alcohol consumption as an expectation during the event or activity.

Print advertisements that incorporate an alcoholic beverage trademark or logo must display the trademark/logo as clearly subordinate to the message concerning the event itself. The name of an alcoholic beverage manufacturer or distributor may not be connected to the name of the event itself, but may be listed as a sponsor of a specific event.

VIOLATION OF STUDENT ALCOHOL POLICY

The SCCSC will provide education, assessment, counseling and referral services for students addressing alcohol-related issues.

Scoring and Awards

A.

Individual Scoring and Awards

1. Individual scores shall be independent of team scores.
2. Individual points for timed events are earned as a ratio of the racer's time compared to the winner's time. The winner for each race will earn 100 points. The remaining racers will receive points according to the following formula:

Place	Time (seconds)	Formula	Points Result
1st	40.00	$40.00/40.00 \times 100 =$	100.000
2nd	41.50	$40.00/41.50 \times 100 =$	96.386
3rd	43.60	$40.00/43.60 \times 100 =$	91.743

3. Individual points for place events (BoarderCross, Halfpipe, Slopestyle) will use the World Cup system outlined in section 5 below.
4. Individual season-to-date points are a summation of the number of races to date, unless more than four individual races have occurred. For end of season scoring, the top four races for each individual are summed to give them their overall individual point score. If less than four races occur during a season, then the total sum of all races will be used for each overall racer point total.
5. Scoring used to determine individual berths to Regionals uses the World Cup system (points updated to reflect FIS 03/04). The top 30 racers eligible for points are as follows:

<u>Place</u>	<u>Points</u>	<u>Place</u>	<u>Points</u>	<u>Place</u>	<u>Points</u>
1 st	100	11 th	24	21 st	10
